Frontend Developer & Interface Designer

Skills

Frontend	React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, WordPress, responsive UI, Git & GitHub
State & data	REST APIs (fetch/axios), async patterns, loading/empty/error states, Zustand / Context API, Firebase / Firestore, Supabase, PostgreSQL, DynamoDB
Backend	Node.js, Express, JWT authentication, API design, security basics
Testing & Quality	Jest, Playwright
UX & product	Figma, Design Systems, user flow mapping, prototyping, Accessibility (WCAG AA), design-to-code handoff, UX research
Agile Workflow	Scrum, Kanban, agile sprints, daily standups

Experience

- Mar 2026 - May 2026 **UI Designer & Frontend Developer Intern, Flowtech International AB, Gothenburg.**
- Shipped full production redesign of shipflow.se (live WordPress site). Conducted UX research with stakeholders, created Figma design system, built complete site with custom CSS, HTML, and WordPress plugins. Site now serves real customers daily.
 - Conducted and synthesized user interviews with researchers and stakeholders; created interaction design flows, empathy frameworks, and 4 user journey maps to guide redesign decisions.
 - Built custom features: user authentication system (Profile Builder), support ticket integration (Fluent Support), resources library with ACF custom post types, following design system conventions.
 - Configured production infrastructure: email delivery via SMTP, DNS setup, form validation, and deployment workflow on HostUp.
- Nov 2025 - Feb 2026 **Frontend Developer Intern, Framsteg 247, Gothenburg.**
- Led design and architecture of React component library. Learned Next.js/TypeScript/Tailwind on the job; built 30+ reusable components covering UI foundations, forms, pages, and complex features.
 - Worked in agile startup environment with Kanban board task division, daily standups, and constant mentorship from senior developer. Collaborated with another frontend developer on component architecture and feature implementation.
 - Designed user flows and UX in Figma based on domain research; iterated with team feedback before implementation.

Selected Projects

- Agora Platform (Feb - Mar 2026) Thesis project: An AI-powered dialogue platform for equality discussions in academic environments. Built with Next.js, TypeScript, Tailwind, Supabase, and Gemini API. Supervised by Dr. Jasmina Maric at Chalmers University of Technology. Features include threaded discussions, Ask AI section, and Resource hub.

Education

- 2024 Aug - 2026 May **Frontend Developer (Graduated May 2026)**, *NBI/Handelsakademin*, Gothenburg, Vål Godkänd (VG) on all 10 courses.
Verify diploma: trueoriginal.com
- 2024 Aug. - 2025 Jan. **IT - Back-end Developer**, *Sundsgårdens Folkhögskola*, Rydebäck.
- 2024 Jan. - 2024 Jun. **IT - Tech for Women**, *Sundsgårdens Folkhögskola*, Rydebäck.
- 2015 - 2018 **M.S. in Educational Research**, *Gothenburg University*, Gothenburg.

Certifications

- AI & Modern Dev Claude Code (daily use), AI-assisted development, prompt engineering, LLM reasoning.
Vanderbilt: Claude Code: Software Engineering with Generative AI Agents (May 2026)

Languages

- Turkish (Native)
- English (Full professional proficiency)
- Swedish (Professional working proficiency)
