Frontend Developer & Interface Designer

Frontend developer with a strong UX mindset. I design flows and interfaces in Figma, then build responsive, maintainable UIs in React/Next.js with TypeScript. Currently leading a full production website redesign at Flowtech International AB, including UX research, design system development, and WordPress implementation with custom features and production infrastructure.

Skills

Frontend	React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, WordPress, responsive UI, Git & GitHub, Vite, npm/pnpm
State & data	REST APIs (fetch/axios), async patterns, loading/empty/error states, Zustand / Context API
Backend	Node.js, Express, JWT authentication, DynamoDB, API design, security basics
UX & product	Figma, user flow mapping, prototyping, accessibility basics, design-to-code handoff, UX research synthesis
Tools	Chrome DevTools, Vercel/Render deployments, VS Code

Experience

- Mar 2026 - Present **UI Designer & Frontend Developer Intern, Flowtech International AB, Gothenburg.**
- Leading full WordPress site redesign for SHIPFLOW (shipflow.se): UX research, Figma design, and full-site build using Wordpress with custom CSS
 - Conducted and synthesized user interviews with researchers and stakeholders; created interaction design flows, empathy frameworks, and 4 user journey maps to guide redesign decisions
 - Built custom features: user authentication system (Profile Builder), support ticket integration (Fluent Support), resources library with ACF custom post types, following design system conventions
 - Configured production infrastructure: email delivery via SMTP, DNS setup, form validation, and deployment workflow on HostUp
- Nov 2025 - Feb 2026 **Frontend Developer& UI Designer Intern, Framsteg 247, Gothenburg.**
- Owned the UX/UI redesign end-to-end: identified usability issues, mapped new user flows, and designed screens/components in Figma
 - Implemented key parts in Next.js (TypeScript, Tailwind) with reusable components and consistent UI patterns
 - Worked iteratively with the Product Owner in weekly sprints with standup meetings on Mondays and Fridays; improved solutions based on feedback

Selected Projects

- Agora Platform (Feb - Mar 2026) Thesis project: A dialogue platform for equality discussions in academic environments with integrated AI. Built with Next.js, TypeScript, Tailwind, Supabase, and Gemini API. Supervised by Dr. Jasmina Maric at Chalmers University of Technology. Features include threaded discussions, Ask AI section, and Resource hub section.

Education

- 2024 - Present **Frontend Developer**, *NBI/Handelsakademin*, Gothenburg.
- 2024 Aug. - 2025 Jan. **IT - Back-end Developer**, *Sundsgårdens Folkhögskola*, Rydebäck.
- 2024 Jan. - 2024 Jun. **IT - Tech for Women**, *Sundsgårdens Folkhögskola*, Rydebäck.
- 2015 - 2018 **M.S. in Educational Research**, *Gothenburg University*, Gothenburg.

Languages

- Turkish (Native)
- English (Full professional proficiency)
- Swedish (Professional working proficiency)

Additional Experience

- 2024 - Present **Preschool Teacher**, ABC All About Children Preschool, Gothenburg. Part-time afternoon club responsibilities while transitioning to tech.
- 2022 - 2024 **Leisure Time Teacher**, Åkeredsskolan, Gothenburg. Developed interactive learning activities and created digital materials.
