Sundsgårdens Folkhögskola · Rydebäck

Jan - Jun 2024

M.S., Educational Research

Gothenburg University

2015 - 2018

SKILLS

FRONTEND

React · Next.js · TypeScript · JavaScript · HTML · CSS · Tailwind · WordPress · Git

STATE & DATA

REST APIs · Zustand · Context API · Firebase · Supabase · PostgreSQL · DynamoDB

BACKEND

Node.js · Express · JWT auth · API design · Security

TESTING

Jest · Playwright

UX & PRODUCT

Figma · Design systems · User flows · Prototyping · WCAG AA · UX research

WORKFLOW

Scrum · Kanban · Agile sprints

AI-ASSISTED

Prompt engineering · Claude Code · AI-assisted development

LANGUAGES

Turkish Native

English Full professional

Swedish Professional working

Career-changing frontend developer with a background in education and a strong record of academic achievement. Completed a demanding frontend development programme with distinction in all ten courses while continuing to work, demonstrating discipline, resilience, and a strong ability to learn. I enjoy taking ownership of the full UI process, from UX research and Figma design to implementation in React, Next.js, TypeScript, and modern JavaScript frameworks.

EXPERIENCE

UI Designer & Frontend Developer Intern

Mar 2026 - May 2026

Flowtech International AB · Gothenburg

- Shipped a full production redesign of shipflow.se, serving real customers daily; owned the process end-to-end from stakeholder UX research through a custom Figma design system to build.
- Conducted user interviews; produced interaction design flows, empathy frameworks, and four user journey maps to guide redesign decisions.
- Built custom features: user authentication system (Profile Builder), support ticket integration, and a resources library with ACF custom post types.
- Configured production infrastructure: SMTP email delivery, DNS setup, form validation, and deployment workflow.

Frontend Developer Intern

Nov 2025 - Feb 2026

Framsteg 247 · Gothenburg

- Led design and architecture of a React component library; built 30+ reusable components spanning UI foundations, forms, pages, and complex features.
- Learned Next.js, TypeScript, and Tailwind on the job in an agile startup environment with Kanban task division, daily standups, and senior mentorship.
- Designed user flows and UX in Figma based on domain research, iterating with team feedback before implementation.

SELECTED PROJECTS

Agora - AI-Powered Academic Dialogue Platform

Feb - Mar 2026

Thesis project · supervised by Dr. Jasmina Maric, Chalmers University of Technology

- Built an AI-powered dialogue platform for equality discussions in academic environments, with threaded discussions, an Ask AI section, and a resource hub.
- Stack: Next.js · TypeScript · Tailwind CSS · Supabase · Gemini API

CERTIFICATIONS

AI-Assisted Software Engineering

May 2026

Vanderbilt University · Coursera

✓ Coursera certificate
